

Construction — Staffroom-aligned teacher delivery program

Tasks 1–7 with Task 5 option branches | source mapped 1 September 2026

Course	Construction	Scope	Complete teacher program across Tasks 1–7; Task 5.1/5.2/5.3 are alternative pathways
Authority	VET statewide staffroom > Construction > Shared > Resource Library	Version	0.2.0 direct-resource local candidate
Planning model	Continuous source-order delivery blocks; local periods/dates not invented	Program relationship	Supplementary whole-course master; not an approved TAS or RTO assessment plan
Hosting	Teacher-only local candidate; authenticated departmental hosting required if published	Resource layer	425 exact Staffroom file records; contents stay in SharePoint

Authority and assessment boundary

This program uses only Staffroom Resource Library material. It supports teacher planning and resource navigation. It does not replace the current Training and Assessment Strategy, controlled assessment tools, assessor guides, observation records, authorised result destination or competency judgement.

Teacher/RTO to confirm before classroom use

- Current qualification and unit titles, releases/statuses, prerequisites and the selected Task 5 option.
- Local calendar, period/hour allocation, facilities, staffing, work placement and authorised practical projects.
- Current controlled assessment versions, conditions, evidence rules, assessor responsibilities and result destination.
- Resolution of the Task 7 page 1 versus pages 14–15 unit contradiction.
- Currency of every linked Staffroom file, legal/standards example and source draft year.

Review and sign-off

Prepared by		Teacher review	
Head Teacher VET review		RTO confirmation / date	

COMPLETE SOURCE MAP

Unit and task register

Source wording is retained. Blank or conflicting details remain Teacher/RTO to confirm.

Task	Unit	Source title	Source status	Hours	Staffroom program source
1	CPCWHS1001	Code used in the Staffroom White Card resource filenames	Exact title/status Teacher/RTO to confirm	Not stated	No equivalent task-program draft identified
2	CPCCCA2002	Use carpentry tools and equipment	Elective, Release 2	10	2. Program/VET Teaching Program Task Tools and Equipment Draft V2.docx
2	CPCCCA2011	Handle carpentry materials	Elective, Release 1	20	2. Program/VET Teaching Program Task Tools and Equipment Draft V2.docx
2	CPCCCM2005	Use construction tools and equipment	Core, Release 1	20	2. Program/VET Teaching Program Task Tools and Equipment Draft V2.docx
3	CPCCWHS2001	Apply WHS requirements, policies and procedures in the Construction Industry	Core	20	2. Program/VET Teaching Program Task Work Safe Draft.docx
4	CPCCCM1011	Undertake basic estimation and costing	Core, Release 1	25	2. Program/VET Teaching Program Task Working it out Draft.docx
4	CPCCOM1015	Carry out measurements and calculations	Core, Release 2	20	2. Program/VET Teaching Program Task Working it out Draft.docx
5.1	CPCCBL2001	Handle and prepare bricklaying and blocklaying materials	Elective; release not shown	20	2. Program/VET Teaching Program Task 5.1 Draft.docx
5.1	CPCCBL2002	Use bricklaying and blocklaying tools and equipment	Elective; release not shown	10	2. Program/VET Teaching Program Task 5.1 Draft.docx
5.2	CPCCWF2002	Use wall and floor tiling tools and equipment	Elective	10	2. Program/VET Teaching Program Task 5.2 Draft.docx
5.2	CPCCCM2013	Undertake basic installation of wall tiles	Elective	25	2. Program/VET Teaching Program Task 5.2 Draft.docx
5.3	CPCCJN2001	Assemble components	Elective	15	2. Program/VET Teaching Program Task 5.3 Draft.docx
5.3	CPCCJN3004	Manufacture and assemble joinery components	Elective	25	2. Program/VET Teaching Program Task 5.3 Draft.docx
6	CPCCOM2001	Read and interpret plans and specifications	Core, Release 2	20	2. Program/VET Teaching Program Task Project Planning Draft.docx
6	CPCCOM1013	Plan and organise work	Core, Release 2	15	2. Program/VET Teaching Program Task Project Planning Draft.docx
7	CPCCVE1011	Undertake a basic construction project	Core; release not shown	25	2. Program/VET Teaching Program Task Group Project Draft.docx
7	CPCCOM1012	Work effectively and sustainably in the Construction Industry	Core; release not shown	30	2. Program/VET Teaching Program Task Group Project Draft.docx

Boundary: Indicative hours are reproduced per source row and are not summed here. The task programs overlap, use different draft years and include alternative Task 5 pathways; the source set does not establish an authorised whole-course hour total.

Complete sequence with option branches

Task numbers and internal cross-references support this planning order; the local timetable remains to be confirmed.

Seq	Task / option	Source delivery	Cohort / year	Program relationship
1	1 — White Card	Not stated in a task-program draft	Teacher/RTO to confirm / Teacher/RTO to confirm	RTO-controlled entry/delivery resource set; no equivalent task-program draft identified
2	2 — Tools, Equipment and Materials	15 weeks (source-stated; no week allocation)	Year 11 / 2025 source draft	Common pathway
3	3 — Work Safe	10–15 weeks (source-stated; no lesson allocation)	11 / 2026	Common pathway
4	4 — Working It Out	10 weeks (source-stated; no lesson allocation)	Year 11 / 2024 source draft	Common pathway
5	5.1 — Brick and Blocklaying	20 weeks (source-stated; no lesson allocation)	Year 12 / Blank in source	Alternative option pathway — school selects one authorised option
6	5.2 — Wall and Floor Tiling	20 weeks (source-stated; no lesson allocation)	Year 12 / Blank in source	Alternative option pathway — school selects one authorised option
7	5.3 — Joinery	20 weeks (source-stated; no lesson allocation)	Blank in source / Blank in source	Alternative option pathway — school selects one authorised option
8	6 — Project Planning	10 weeks (source-stated; no lesson allocation)	Year 11 or 12 / 2026	Common pathway
9	7 — Group Project	25 weeks (source-stated; no lesson allocation)	Year 12 / 2024 source draft	Capstone/group-project source; unit contradiction must be resolved

Known source conflicts carried forward

- Draft years vary across 2024, 2025 and 2026; no current whole-course year/calendar is supplied.
- Source-stated weeks and unit indicative hours are not reconciled into periods or a whole-course total.
- CPC20120 qualification wording and prerequisite codes/relationships vary across drafts.
- Task 5 option programs state that there is no HSC content for their listed competencies.
- Task 7 page 1 lists CPCCVE1011 and CPCCOM1012; pages 14–15 introduce CPCCCM1011 while mapping a basic construction project.

Direct resource register

Curated exact-file links for each task. The complete 425-file index remains available in the teacher website.

Every bold link below opens the named file itself in the authenticated VET statewide staffroom. A draft, dated or controlled file still requires Teacher/RTO currency and approval checks.

Task / option	Curated direct Staffroom files
1 — White Card	CPCWHS1001-Teacher Manual.docx CPCWHS1001-Learner Manual.docx CPCWHS1001-PPT-Element-01-F-v1.0.pptx CPCWHS1001-Learner Workbook.docx
2 — Tools, Equipment and Materials	VET Teaching Program Task Tools and Equipment Draft V2.docx [Draft — Teacher/RTO to confirm] Task 2 - Tools and Equipment - Teacher Guide.docx CPCCCA2002 Learner Guide.docx CPCCCA2002 Presentation.pptx
3 — Work Safe	VET Teaching Program Task Work Safe Draft.docx [Draft — Teacher/RTO to confirm] CPCCWHS2001-Teacher Manual.docx CPCCWHS2001-Learner Manual.docx CPCCWHS2001-PPT-Element 01-F-v1.1.pptx
4 — Working It Out	VET Teaching Program Task Working it out Draft.docx [Draft — Teacher/RTO to confirm] Task 4 - Working It Out - Teacher Guide.docx CPCCCM1011 Learner Guide (1).docx [Duplicate-copy check] CPCCCM1011 Presentation.pptx
5.1 — Brick and Blocklaying	VET Teaching Program Task 5.1 Draft.docx [Draft — Teacher/RTO to confirm] Task 5.1 - Bricklaying - Teacher Guide.docx CPCCBL2001 Learner Guide.docx CPCCBL2001 Presentation.pptx
5.2 — Wall and Floor Tiling	VET Teaching Program Task 5.2 Draft.docx [Draft — Teacher/RTO to confirm] Task 5.2 - Tiling - Teacher Guide.docx CPCCCM2013 Learner Guide.docx CPCCCM2013 Presentation.pptx
5.3 — Joinery	VET Teaching Program Task 5.3 Draft.docx [Draft — Teacher/RTO to confirm] Task 5.3 - Joinery - Teacher Guide.docx CPCCJN2001 Learner Guide.docx CPCCJN2001 Presentation.pptx
6 — Project Planning	VET Teaching Program Task Project Planning Draft.docx [Draft — Teacher/RTO to confirm] CPCCOM2001 Teacher guide.docx CPCCOM1013-Learner Guide.docx CPCCOM1013-PPT-Element 01-F-v2.0.pptx
7 — Group Project	VET Teaching Program Task Group Project Draft.docx [Draft — Teacher/RTO to confirm] CPCCVE1011 Learner Guide.docx CPCCVE1011 Presentation.pptx Gantt Chart.pdf

Link method: The original SharePoint folders are retained in the website only as secondary fallbacks. The program and task guides use exact path-based links with no Teams session identifiers or volatile tokens.

Task 1 — White Card

Not stated in a task-program draft | Teacher/RTO to confirm | Teacher/RTO to confirm

Start with these exact files: [CPCWHS1001-Teacher Manual.docx](#) | [CPCWHS1001-Learner Manual.docx](#) | [CPCWHS1001-PPT-Element-01-F-v1.0.pptx](#) | [CPCWHS1001-Learner Workbook.docx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
01	RTO / admin	Delivery pathway and local readiness	Use the Staffroom flow chart, school-delivery checklist and student guide to confirm the approved local delivery pathway before students begin. Use: 1. White Card Flow Chart 1 RTO.pdf	Task 1 White Card resource set	Record the approved delivery pathway; do not treat this site as approval.
02	RTO / admin	Learner administration and support	Use the linked LLN, USI and pre-assessment resources in the authorised Staffroom location. Use: 6. Student Guide.docx	White Card course delivery resources	Teacher/RTO confirms learner readiness and required administration.
03	RTO / admin	Authorised teaching resources	Deliver from the current teacher manual, learner manual/workbook and presentation resources held in the Staffroom. Use: CPCWHS1001-Teacher Manual.docx	CPCWHS1001-labelled TotalVET resources	Teacher records delivery using the approved local/RTO process.
04	RTO / admin	Controlled assessment boundary	Use only the current RTO-controlled assessment and mapping materials. Keep answers, assessor guidance and learner records outside this site. Use: SW08745 SafeWork NSW Assessment Mapping Matrix - CPCWHS1001 - V2.2 100323.pdf	White Card assessment mapping and pre-assessment resources	Assessment outcome and issue of evidence remain with the authorised RTO process.

PROGRAM SECTION 2 · YEAR 11 SOURCE PROGRAM

Task 2 — Tools, Equipment and Materials

15 weeks (source-stated; no week allocation) | Year 11 | 2025 source draft

Start with these exact files: [VET Teaching Program Task Tools and Equipment Draft V2.docx](#) | [Task 2 - Tools and Equipment - Teacher Guide.docx](#) | [CPCCCA2002 Learner Guide.docx](#) | [CPCCCA2002 Presentation.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
05	Theory / guided	Hand-tool identification and selection	Identify available hand tools, examine images for unavailable tools, and explain features, purpose, limitations and selection. Use: CPCCCA2002 Presentation.pptx	CPCCCA2002; CPCCCM2005	Teacher discussion and tool-identification notes; formative only.
06	Theory / guided	Safe hand-tool use and care	Demonstrate safe operation, PPE, hazards, controls, cleaning, maintenance and storage; use Staffroom videos and manuals. Use: Timber equipment PPE posters.pdf	CPCCCA2002; CPCCCM2005	OnGuard or equivalent safety testing is source-named; formal status Teacher/RTO to confirm.
07	Theory / guided	Power and pneumatic tools	Identify power/pneumatic tools and supporting equipment, then explain purpose, limitations and task selection. Use: CPCCCM2005 Presentation.pptx	CPCCCA2002; CPCCCM2005	Student explanation and teacher feedback; formative only.
08	Theory / guided	Power-tool safety	Cover SOPs, electrical controls, testing/tagging, PPE, hazards, care and workplace policies. Use: a using a circ saw.pdf	CPCCCA2002; CPCCCM2005	Safety test or equivalent where locally required; status Teacher/RTO to confirm.
09	Theory / guided	Maintenance, sharpening and faults	Demonstrate cleaning, grinding/sharpening/honing, blade/cutter/disc changes, fault recognition, reporting and lockout/tagging. Use: CPCCCA2002 Learner Guide.docx	CPCCCA2002; CPCCCM2005	Teacher observation and feedback; authorised equipment and supervision locally confirmed.
10	Theory / guided	Materials, SDS and handling plan	Plan material handling using WHS information and SDS; identify material categories and suitable handling equipment. Use: CPCCCA2011-PPT-Element 01-F-v1.0.pptx	CPCCCA2011	Task Package 2 work-instruction and handling-sequence planning is source-referenced, not reproduced.
11	Practical / project	Move, sort, stack and protect materials	Practise lifting, wheelbarrow use, mechanical handling preparation, sorting, stacking and protection from damage and weather. Use: CPCCCA2011-PPT-Element 02-F-v1.0.pptx	CPCCCA2011	Task Package 2 performance phase is RTO-controlled; evidence requirements Teacher/RTO to confirm.
12	Program	Evaluation and adjustment	Record delivery dates, adjustments, student feedback, resource adequacy and changes for the next delivery. Use: VET Teaching Program Task Tools and Equipment Draft V2.docx	Task 2 program sign-off page	Teacher signature and local program registration.

PROGRAM SECTION 3 · YEAR 11 SOURCE PROGRAM

Task 3 — Work Safe

10–15 weeks (source-stated; no lesson allocation) | 11 | 2026

Start with these exact files: [VET Teaching Program Task Work Safe Draft.docx](#) | [CPCCWHS2001-Teacher Manual.docx](#) | [CPCCWHS2001-Learner Manual.docx](#) | [CPCCWHS2001-PPT-Element 01-F-v1.1.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
13	Theory / guided	WHS, consultation and duty of care	Use discussion, readings, case studies and workplace examples to examine WHS participation, consultation and the effects of workplace injury. Use: WHS Intro Construction.pptx	CPCCWHS2001 Element 1	Discussion responses and case-study notes; formative only.
14	Theory / guided	Compliance, responsibilities and regulators	Distinguish Acts, regulations, codes and standards; examine PCBU, officer, worker, HSR and inspector roles. Use: CPCCWHS2001-PPT-Element 01-F-v1.1.pptx	CPCCWHS2001 Element 1	Teacher checks role/compliance explanations.
15	Theory / guided	Signs, barricades and reporting	Interpret safety signs, symbols and barricades; inspect and report hazards, unsafe practices, incidents and injuries. Use: Construction Signs.pptx	CPCCWHS2001 Elements 1, 2, 3 and 4	Learning-environment hazard report; formative only.
16	Theory / guided	Risk management	Differentiate hazard and risk, identify workplace hazards, assess risk and apply the hierarchy of control with review and monitoring. Use: Risk RAM HOC.pptx	CPCCWHS2001 Elements 1 and 2	Hierarchy-of-control explanation against an identified hazard.
17	Theory / guided	Safe work procedures and hazardous materials	Use JSA, SWMS, SDS, SOP, site plans and workplace policies; cover handling, labelling, transport, storage and disposal. Use: CPCCWHS2001-Teacher Manual.docx	CPCCWHS2001 Elements 1–3	Teacher checks document purpose and safe-work reasoning.
18	Theory / guided	Asbestos, PPE, housekeeping and tools	Cover asbestos awareness, prohibited tools, housekeeping, waste, environmental controls, PPE and safe tool/machinery practices. Use: Asbestos fact sheet.pdf	CPCCWHS2001 Elements 2–4	Source notes some content is covered/assessed in White Card; completion Teacher/RTO to verify.
19	Theory / guided	Higher-risk contexts and ergonomics	Address manual handling, ergonomics, electricity, traffic, heights, confined spaces, compressed air and dangerous materials as source-listed NESA additions. Use: CPCCWHS2001-Learner Workbook.docx	Additional NESA content in Task 3 source	Teacher checks safe-work procedure proposals.
20	Theory / guided	Incidents, emergencies and first aid	Use scenarios to cover emergency assistance, evacuation, fire response, first aid, incident recording and reporting. Use: Sample Evacuation Diagram.docx	CPCCWHS2001 Element 5	Scenario response and teacher feedback; no competency claim.

PROGRAM SECTION 4 · YEAR 11 SOURCE PROGRAM

Task 4 — Working It Out

10 weeks (source-stated; no lesson allocation) | Year 11 | 2024 source draft

Start with these exact files: [VET Teaching Program Task Working it out Draft.docx](#) | [Task 4 - Working It Out - Teacher Guide.docx](#) | [CPCCCM1011 Learner Guide \(1\).docx](#) | [CPCCCM1011 Presentation.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
21	Theory / guided	Measurement language and equipment	Introduce measurement terminology, units, equipment selection, features, uses, limitations and care. Use: Basic measuring and calculations.pdf	CPCCOM1015 Element 1	Equipment selection explanation and discussion responses.
22	Theory / guided	Accuracy, units and conversion	Explore consequences of error, metric units and conversions; reinforce 'measure twice, cut once'. Use: CPCCOM1015-PPT-Element 01-F-v2.0.pptx	CPCCOM1015 Elements 1–2	Conversion practice and teacher feedback.
23	Theory / guided	Linear measurement and calculation methods	Measure timber to 1 mm and use manual/electronic addition, subtraction, multiplication, division, decimals, fractions and percentages. Use: CPCCOM1015-LG-F-v2.0.docx	CPCCOM1015 Elements 1–2	Practical measurements and recorded workings; formative only.
24	Theory / guided	Area, volume, quantities and tolerances	Calculate perimeter, area, volume, circumference, ratio and quantity; apply the 3:4:5 method and source-listed tolerances. Use: Pythagorean 1.pdf	CPCCOM1015 Element 2	Object/site calculations with working shown.
25	Theory / guided	Record and communicate results	Record measurements, material requirements, sketches and calculations legibly with industry abbreviations and checks against plans/specifications. Use: CPCCOM1015-LAB-F-v2.0 .docx	CPCCOM1015 Element 2	Teacher reviews calculation record for clarity and checking.
26	Theory / guided	Materials and labour estimates	Review plans/specifications, create a material list, obtain unit costs, estimate quantities and labour, then calculate costs. Use: CPCCCM1011 Presentation.pptx	CPCCCM1011 Elements 1–3	Draft material/labour estimate; delivery support only.
27	Theory / guided	Basic costing documentation	Calculate total material and labour cost and prepare a basic costing sheet. Use: CPCCCM1011 Learner Guide (1).docx	CPCCCM1011 Element 4	Costing sheet and teacher feedback; formal assessment Teacher/RTO to confirm.

PROGRAM SECTION 5.1 · YEAR 12 OPTION PATHWAY

Task 5.1 — Brick and Blocklaying

20 weeks (source-stated; no lesson allocation) | Year 12 | Blank in source

Start with these exact files: [VET Teaching Program Task 5.1 Draft.docx](#) | [Task 5.1 - Bricklaying - Teacher Guide.docx](#) | [CPCCBL2001 Learner Guide.docx](#) | [CPCCBL2001 Presentation.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
28	Theory / guided	Safety, terminology and standards	Use expert-group research for JSEA, manual tasks, silica, noise, electrical hazards, trade terminology, codes and standards. Use: Task 5.1 - Bricklaying - Teacher Guide.docx	CPCCBL2001 Element 1	Research report-back; no HSC content claimed in source.
29	Practical / project	Environment, materials and mortar	Cover environmental requirements, waste, masonry materials and consistent M3 mortar using bucket gauging and safe mixer setup. Use: CPCCBL2001 Presentation.pptx	CPCCBL2001 Elements 1–3	M3 mortar component may be practice or assessment; Teacher/RTO to confirm.
30	Theory / guided	Plant, wet saw and dust control	Identify plant/equipment, complete pre-operation checks and use a wet-cut saw with hearing/respiratory PPE and dust controls. Use: WET SAW.pdf	CPCCBL2001; CPCCBL2002	Source-named assessment component; controlled instrument not included.
31	Theory / guided	Handle, relocate and stack materials	Use manual/mechanical methods, arrange pallets, move and stack materials, and load mortar boards safely. Use: CPCCBL2001 Class activity book - Student.docx	CPCCBL2001 Element 2	Source-named assessment component; conditions Teacher/RTO to confirm.
32	Practical / project	Lay, align and finish	Read plans/specifications, measure, mark, lay plumb/level/aligned work and produce three joint finishes. Use: CPCCBL2002 CQ LW.docx	CPCCBL2001 performance evidence	Brick/block project evidence remains RTO-controlled.
33	Theory / guided	Plans, JSEA and tool range	Interpret trade plans, complete the source-referenced Section 2 Work Plan – JSEA, inspect tools and complete locally required safety testing. Use: VET Teaching Program Task 5.1 Draft.docx	CPCCBL2002 Elements 1–4	Assessment component and safety authorisation Teacher/RTO to confirm.

PROGRAM SECTION 5.2 · YEAR 12 OPTION PATHWAY

Task 5.2 — Wall and Floor Tiling

20 weeks (source-stated; no lesson allocation) | Year 12 | Blank in source

Start with these exact files: [VET Teaching Program Task 5.2 Draft.docx](#) | [Task 5.2 - Tiling - Teacher Guide.docx](#) | [CPCCCM2013 Learner Guide.docx](#) | [CPCCCM2013 Presentation.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
34	Theory / guided	Standards, policies and safety	Review workplace quality, standards/codes, JSA/SWMS, PPE, manufacturer recommendations and silica controls. Use: Task 5.2 - Tiling - Teacher Guide.docx	CPCCWF2002	Individual research and report-back; no HSC content claimed in source.
35	Theory / guided	Environment and JSEA	Apply environmental controls and source-listed waste practices to the tiling context. Use: CPCCWF2002 CQ PP.pptx	CPCCWF2002	Section 2 Work Plan – JSEA component is source-referenced and controlled.
36	Practical / project	Tiling tools and equipment	Identify and safely use levelling, cutting, mixing, drilling, grinding and hand-tool equipment; complete local safety testing. Use: CPCCWF2002 Class activity book - Assessor (2).docx	CPCCWF2002	Teacher observes practice; formal status Teacher/RTO to confirm.
37	Theory / guided	Drawings and set-out	Read/create simple layout drawings and establish a suitable set-out. Use: Tiling Station Drawing set.pdf	CPCCCM2013 Element 1–2	Section 2 layout-drawing component is source-referenced, not reproduced.
38	Theory / guided	Material calculations	Calculate tile, adhesive and grout requirements using the Staffroom guides and examples. Use: tiling 1 materials Worksheet.pdf	CPCCCM2013 Element 1	Section 2 material-requirements component is controlled.
39	Practical / project	Prepare, lay, cut and grout	Prepare the substrate, mix/apply adhesive, lay and level tiles, cut penetrations, grout and clean up. Use: tiling 2 how to mix motar.pptx	CPCCCM2013 Elements 3–5; source also repeats CPCCWF2002 evidence	Source references wall and floor tasks; exact unit/evidence relationship Teacher/RTO to confirm.

PROGRAM SECTION 5.3 · OPTION PATHWAY; COHORT BLANK IN SOURCE

Task 5.3 — Joinery

20 weeks (source-stated; no lesson allocation) | Blank in source | Blank in source

Start with these exact files: [VET Teaching Program Task 5.3 Draft.docx](#) | [Task 5.3 - Joinery - Teacher Guide.docx](#) | [CPCCJN2001 Learner Guide.docx](#) | [CPCCJN2001 Presentation.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
40	Theory / guided	Standards, workplace quality and safety	Review standards/codes, workplace policy, WHS and joinery hazards through discussion and individual research. Use: Task 5.3 - Joinery - Teacher Guide.docx	CPCCJN2001 Element 1	Research report-back; no HSC content claimed in source.
41	Theory / guided	Tools, machinery and safety testing	Identify tool/machinery purpose, limitations and safe use; complete authorised local safety testing where required. Use: CPCCJN2001 Presentation.pptx	CPCCJN2001	Local machine authorisation and assessment status Teacher/RTO to confirm.
42	Theory / guided	Constructed-unit processes	Examine doors, frames, cupboards, counters, shelving, robes, shopfronts, stairs and sashes; practise joinery methods. Use: CPCCJN3004 CQ PP.pptx	CPCCJN2001 Elements 2–4	Teacher feedback on process explanation and practice.
43	Theory / guided	Holding and clamping methods	Use clamps, cramps, packers, wedges and presses to hold components during assembly. Use: Task 1 Timber Framing Joints Set.pdf	CPCCJN2001	Practical rehearsal; formal evidence Teacher/RTO to confirm.
44	Practical / project	Assembled products	Use the source relationship between CPCCJN2001 and later CPCCJN3004 work to plan a door frame, door and cupboard. Use: Adhesives theory.pdf	CPCCJN2001 performance evidence as source-stated	Shared-evidence mapping is not supplied; Teacher/RTO to confirm.
45	Theory / guided	JSA, SWMS, SDS and environment	Review safety documentation and environmental requirements for three joinery projects. Use: Material Pricing for Door.xlsx	CPCCJN3004 Element 1	Source suggests a JSA for three projects; controlled assessment not reproduced.
46	Practical / project	Fittings, joints and three projects	Practise fasteners, adhesives, knock-down fittings and traditional joints, then plan/produce the source-named sash/window, door/frame and carcass cupboard projects. Use: VET Teaching Program Task 5.3 Draft.docx	CPCCJN3004 Elements 2–5	Project observation and competency decisions remain RTO-controlled.

Task 6 — Project Planning

10 weeks (source-stated; no lesson allocation) | Year 11 or 12 | 2026

Start with these exact files: [VET Teaching Program Task Project Planning Draft.docx](#) | [CPCCOM2001 Teacher guide.docx](#) | [CPCCOM1013-Learner Guide.docx](#) | [CPCCOM1013-PPT-Element 01-F-v2.0.pptx](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
47	Theory / guided	Work-instruction sources	Interpret standards, client/PCBU requirements, drawings, JSA/SWMS, SDS, SOP, schedules and workplace policies. Use: CPCCOM1013-PPT-Element 01-F-v2.0.pptx	CPCCOM1013 Element 1	Student research/expert report; formative only.
48	Theory / guided	Clarification, quality and communication	Clarify instructions through active listening and questions; examine QA responsibilities and workplace variation. Use: CPCCOM1013-PPT-Element 02-F-v2.0.pptx	CPCCOM1013 Element 1	Workplace communication scenario and teacher feedback.
49	Theory / guided	Plan and organise a work task	Break work into components, estimate people/time/resources, sequence tasks and prepare a written plan and resource list. Use: CPCCOM2001 Presentation.pptx	CPCCOM1013 Elements 1–2	Source references Section 2 Work Plan, Gantt Chart and Materials List; instrument controlled.
50	Theory / guided	Safe work, quality and team preparation	Review WHS, quality, role allocation, tools/equipment/PPE and group-project coordination. Use: General Building Specifications - For reference prupsoe only.docx	CPCCOM1013 Element 2	Begin local 3–4-person group planning only where authorised.
51	Practical / project	Project documents and environmental plans	Interpret contracts, quotes, specifications, schedules and environmental plans. Use: Sample Quote Template (1).xlsx	CPCCOM2001	Document-purpose explanation and source-based discussion.
52	Theory / guided	Plans, title blocks and symbols	Read title panels, amendments, legends, symbols, abbreviations, orientation, scale and site information. Use: VET Construction job costing.docx	CPCCOM2001 Elements 1–3	Use supplied Staffroom plans for questions; exact assessment set Teacher/RTO to confirm.
53	Practical / project	Plan types and project requirements	Interpret location/site/floor plans, elevations, sections and details, then identify project requirements and prepare work/material plans. Use: VET Teaching Program Task Project Planning Draft.docx	CPCCOM2001 Elements 1–3	Source references Section 2 Part A Work Plan and Part C Materials List; controlled.

PROGRAM SECTION 7 · YEAR 12 SOURCE PROGRAM

Task 7 — Group Project

25 weeks (source-stated; no lesson allocation) | Year 12 | 2024 source draft

Start with these exact files: [VET Teaching Program Task Group Project Draft.docx](#) | [CPCCVE1011 Learner Guide.docx](#) | [CPCCVE1011 Presentation.pptx](#) | [Gantt Chart.pdf](#)

Folder fallback only: [Browse the original Staffroom task folder](#)

P	Type	Focus	Teaching and learning	Unit / content	Evidence / outcomes
54	Theory / guided	Industry sectors and scope	Explore construction sectors, products/services, interrelationships, regulatory requirements, issues and trends using the Staffroom resource labels. Use: CPCCOM1012-PPT-Element-01-F-v1.0.pptx	CPCCOM1012	Industry-sector explanation; source contains an unfinished CAQA update note.
55	Theory / guided	Careers, training and employment	Investigate apprenticeships, traineeships, SBATs, qualifications, licences, job roles, employment types, rights and responsibilities. Use: Environmental protection.docx	CPCCOM1012 Element 2	Selected role/pathway skill list; formative only.
56	Theory / guided	Work instructions and task planning	Integrate instruction sources, clarification, sequencing, quality, resource planning and safe-work procedures with the selected group project. Use: Conflict Poster.pdf	CPCCOM1012; group-project planning	Written plan/resource list; formal status Teacher/RTO to confirm.
57	Theory / guided	Teamwork and communication	Plan as a team, allocate roles, follow instructions, resolve problems, communicate effectively and address conflict. Use: CPCCVE1011 Presentation.pptx	CPCCOM1012 Element 1	Team planning and performance evidence remains assessor-controlled.
58	Theory / guided	Diversity and respectful workplaces	Examine cultural inclusion, bullying, harassment, discrimination, rights, responsibilities and recourse. Use: Quality Control.pdf	CPCCOM1012 HSC content	Scenario discussion and teacher feedback.
59	Theory / guided	Sustainability and resource efficiency	Identify environmental hazards, measure resource use, report issues, propose improvements and complete site clean-up responsibly. Use: CPCCOM1012-LG-F-v1.0.docx	CPCCOM1012 Element 3	Basic environmental/resource-efficiency reports; assessment status Teacher/RTO to confirm.
60	Practical / project	Basic project manufacture and assembly	Read plans, select PPE/tools, calculate components, manufacture, assemble, align, finish and clean up the authorised project. Use: VET Teaching Program Task Group Project Draft.docx	Source pages 14–15; control table lists CPCCVE1011 but page heading contradicts this	Do not use the contradictory heading as assessment authority; RTO must resolve unit mapping and observation checklist.

CONTROLLED IMPLEMENTATION DECISIONS

Teacher/RTO confirmation register

Resolve and sign off these source gaps before the affected section is used for delivery or assessment.

Task / option	Decisions to confirm
1 — White Card	- Exact current unit title, release, delivery pathway and trainer/assessor authorisation. - Current pre-assessment, LLN, USI, assessment and record-keeping requirements. - Whether every linked White Card file is still the approved current version.
2 — Tools, Equipment and Materials	- Current qualification wording, unit releases/status and the exact pre/co-requisite relationship. - Local 15-week timetable and allocation of the source-stated 50 indicative hours. - Current controlled Task Package 2 instrument, conditions, evidence rules and result destination. - Local SOPs, PPE, available equipment, supervision and safety-test requirements.
3 — Work Safe	- What White Card content each learner has actually completed and what may be treated only briefly. - Local 10–15 week timetable, HSC mapping and current legal/workplace examples. - Current assessment instrument, conditions, evidence sufficiency and authorised result destination.
4 — Working It Out	- Current year, releases/prerequisite and local allocation of 45 source-stated indicative hours. - Task 6 cross-reference, current resource versions and the authorised assessment schedule. - Formal evidence, assessor requirements and result-recording arrangements.
5.1 — Brick and Blocklaying	- Local selection of this option; unit releases, qualification wording and current standards/legal references. - Project, plant availability, authorised operators, dust controls and local supervision. - Controlled assessment instruments and whether each green source note is practice or assessment.
5.2 — Wall and Floor Tiling	- Local option selection, source year, current unit releases/status, prerequisite and hours. - Which wall/floor evidence belongs to each unit and the current controlled assessment version. - Substrate, tools, PPE, silica controls, facilities and supervision.
5.3 — Joinery	- Cohort, study year, local option selection, current unit releases/status and qualification wording. - Machine authorisations, standards/resource currency, project specifications and facilities. - Formal shared-evidence mapping and controlled assessment instruments.
6 — Project Planning	- Exact cohort, 10-week timetable, prerequisite, qualification wording and PowerPoint range noted oddly in the source. - Selected project/plans, group size, workplace access and current resource versions. - Assessment version, timing, evidence rules, authorised destination and assessor decisions.
7 — Group Project	- Resolve the major page 1 versus pages 14–15 unit contradiction before classroom use. - Current year, prerequisite code, project/plans/specifications, resources, group roles and schedule. - Current assessment instruments, observation tools, mapping, evidence rules and result destination.

Sign-off in this supplementary program records that the teacher, Head Teacher VET and RTO have reviewed the planning decisions. It is not an assessment judgement or competency result.

Delivery, adjustment and follow-up ledger

Planning aid only — not the official RTO delivery, assessment or competency record

Complete this table or use the matched CSV after the local sequence has been authorised. Record actual delivery and variance without overwriting the source program.

Date	Seq	Planned h	Actual h	Initials	Variance / evidence checked	Adjustments	Follow-up

End-of-delivery evaluation and sign-off

Delivery commenced		Delivery completed	
Teacher evaluation		Adjustments for next delivery
